

Announcement

June 5, 2019

As of August 31, 2019 St. Clair College Aquatic Services will be shifting focus from community based programs to college student centered services. St. Clair College is winding down public pool offerings in the effort to provide enhanced time and education to students of the college.

Public memberships will no longer be available for purchase and any current memberships will remain open until Saturday, August 31st. After this period of time, those who have an existing membership will be refunded as of August 31, 2019 for any unused balance.

Only current students and staff will have full access to the pool. Programming will be designed around the desires and availability of its users and modified as needed. No outside rentals, user groups or public lessons will be scheduled after the summer sessions. This will allow for maximum allocation for academic purposes.

Although St. Clair will no longer be offering lessons or pool time to the public, we would like to encourage you to continue your aquatic activities at other area facilities. Please find attached a list of facilities with comparable services.

We would like to express our sincere thanks to those who have enjoyed the St. Clair College pool over the many years of its public operation and look for your understanding as we change to fit the needs of our growing student population.
