

Dear Successful Applicant:

CONGRATULATIONS!!! You have been successful in securing a position within the Cybersecurity program here at St. Clair College.

Laptop Requirements

MINIMUM RECOMMENDED HARDWARE

- Intel I5, similar AMD processor or better, with a chipset that supports virtualization
- 8 GB of RAM (Higher recommended)
- 500 GB hard drive or higher
- Wireless Network Card
- One USB 3.0 port (two preferred)
- 3 Year Canadian comprehensive parts and labour (Recommended)

SOFTWARE REQUIREMENTS

- Windows 11 Professional Edition minimum

As this is a BYOD (Bring-Your-Own-Device) program, it is the student's responsibility for the 'care and feed' of the device. Hardware and software specifications outlined here represent the minimum requirements for the program. However, it's important to note that these specifications may not fully meet all a student's needs throughout the program.

We strongly recommend students consider purchasing devices that exceed the minimum requirements outlined. The provided list should be viewed as a starting point and guide to review current market offerings. Investing in a more robust system can enhance your learning experience, accommodate evolving software demands, and provide longevity to support your educational journey effectively.

Best regards,

Andrew Steele
