When the T2202 student tax data was processed, a 'snapsl your SIN was used. If at that time, it was Blank (999-999-999), that is what be shown on your T2202 even if a proper SIN has now been given to us, as Student Identification data must match what was filed with CRA and cannot updated. anv future T2202's would reflect the updated SIN."
